# GOKHALE MEMORIAL GIRLS' COLLEGE

Physical Infrastructure at the Gokhale College

Academic/Teaching-Learning and Research Infrastructure

- **Classrooms** : College has a total of 26 classrooms, including three new classrooms which have been built recently. All classrooms are well-lit with natural light and airy with good ventilation. There are 4 large classrooms, called Lecture theaters (including 1 gallery). All classrooms are equipped with computers and internet connection to facilitate teaching-learning in blended mode. Departmental computers are used regularly for academic purposes both by the Faculty and the students. Classrooms are allotted to the departments according to their student strength making sure that learners have sufficient space.
- A new building with an elevator is under construction.
- **Library** : College has an open-access, air-conditioned Library with barcode scanning facility. Library also has a printer and a photocopier machine. Library also has significant numbers of e-resources. Reading room is extensively used by both students as well as teachers. Issuing of books is done using Barcoding scanner.. Book bank, reprographic facilities are available at the library.
- **Departmental Library:** All departments keep important books in their respective libraries which are accessible to the students.

Psychological Counseling

Modern life with all its stressors can make day-to-day living very challenging for everyone. This is alarmingly so for the young students as they may not possess the coping skills and strategies required to face the burdens of life. GMGC wishes to give our young students a shoulder to lean on while they grapple with complexities in their academic life, peer groups, family life and even professional lives.

Most im[portantly, Covid pandemic wrecked havoc in young pupil's minds, especially when they lost their loved ones. It was the right time that college took initiative to arrange psychological counseling sessions with professional counselor.

Gokhale College Central Library

The College Central Library is well-equipped and well stocked. It has over twenty eight thousand collections of printed books and e books. Library subscribes to five magazines and two peer review journals for undergraduate students. Library services are fully automated. The library has two rooms. One room which is the reading room includes books stacks too. The second room also has book stacks and is used as the circulation counter. There is a mezzanine block which is the UGC Network Center. It has bounded volumes of journals and also serves as the reading room.

From 2014, the information management system was based on LIBSYS (LSease version) Library Management Software. Presently it has switched over to KOHA (22.11 version). The Central Library follows Dewey Decimal Classification Scheme (19th ed.) for classification and AACRII code for cataloging of books. Books are arranged according to the Broad Subject Category in a 000-999 series. All books have been barcoded.

The library has started digitizing a few important reference books which are presently not available in the market and those which are in fragile condition and need proper preservation.

The Central Library remains open on all working days during college hours. During University Examination, the Library remains closed for the students as the central examination committee conducts the university examination from the library.

Central Library is fully Air Conditioned and Wi-Fi enabled. the users can avail of the and user can avail the net facility through QR scan code.
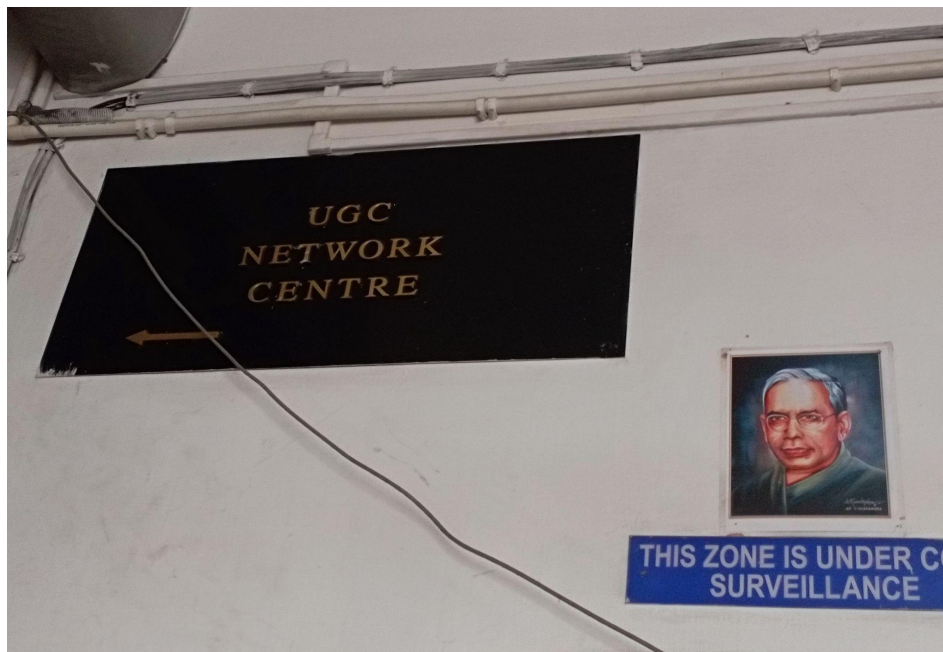

CCTV has been installed to ensure safety and security of the Central Library.

For preservation of books College Central Library is regularly treated with Pest Control measures.

Green Campus

College garden maintained by NCC Unit-1

College although has very limited campus area, still it secures very small space for gardening and plantation. A gardener (casual staff) is appointed who maintains the garden. NSS also organizes special observance events on World Environment Day where tree plantation drives are usually done.

Post Covid Sanitization facilities

The college resumed its post covid journey from 16th November, 2021. The college took all necessary measures to stop spreading the still looming threat of Covid virus. Touch free hand Sanitizers were installed in both the buildings. Temperature guns were given to the security personnel at the main gate to check body temperature of all who are coming into the premises. Fumigation machines were obtained to sterilize the classroom, corridors, staff rooms after each working day. Soap sanitizers were placed in every washroom.
